

TIMS TEST SETS per EURO / ITU-T Recommendations

MODEL

DESCRIPTION

COMMUNICATIONS TEST SETS per EURO / ITU-T RECOMMENDATIONS
 Measurements: ITU-T Recommendations and IEEE Standards 743-1995
*Euro Test Sets have a Psophometric Filter in place of the C Message Filter,
 and 150 Ohm Input / Output Impedance instead of 100 Ohm Impedance.*

807 TTS

PORTABLE, TRANSMISSION TEST SET

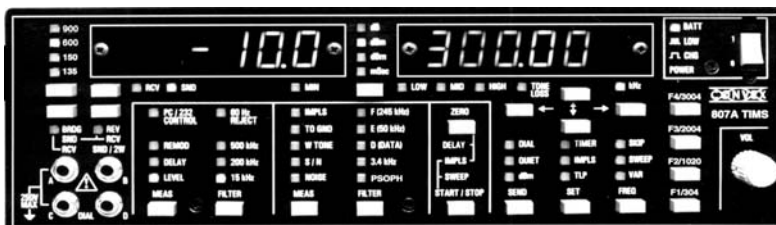

BASIC TTS

Measures: Noise, Level, and Frequency

Supports Telecom and Radio Systems

807R RACK MOUNT Version / 1U High

807A

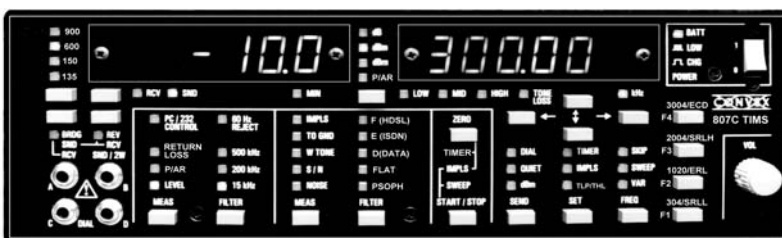

PORTABLE, TIMS TEST SET

Adds: Delay and Impulse Noise to Basic TTS
 Similar to HP 4934A, but Delay in place of P/AR

Supports Telecom, Radio Systems and **Simulcast** Networks**807AR RACK MOUNT Version / 1U High**

[Compare to HP 4934A](#) [TIMS Terms](#) [Round Trip Delay](#) [Extended Delay](#) [Data Logging](#)
[Sweep / ATC Impedance Bond Test](#) [VF Auto Test](#) [Auto Test: VF, DSL, HDSL](#) [Dial Line Test](#)
[Load Coil Detection](#) [Modem Control](#) [M1020 Testing](#) [807A ASCII Commands](#) [Battery Replacement](#)

807C

PORTABLE, TIMS TEST SET

Adds: P/AR, Return Loss, and
 Impulse Noise to Basic TTS

Replacement for HP 4934A with
 IEEE Std. 743-1995 Noise Filters
 Supports Telecom and Radio Systems
[Compare to HP 4934A](#)

807CR RACK MOUNT Version / 1U High

Portable Test Sets include
 PC Cable, 2 Test Leads, Battery, Power Cord,
 Field Case, Manual, PC Software

Rack Mount Test Sets include
 Manual, PC Software, PC Cable, Power Cord
